SUDS

Drivesett Tegula Piora Permeable Paving, a Sustainable Urban Drainage System (SUDS) for driveways

- Same traditional look and feel as the popular Drivesett Tegula
- This permeable paving system features the Marshall's unique patented 'Piora' nib design which allows surface water to pass between blocks into a specially calculated sub-base without compromising the structural performance of the driveway
- The use of SUDS can reduce the risks of flooding and pollution of the public sewer system especially in times of heavy rainfall
- If installed with the correct sub-base this permeable paving solution can be used in a front garden without obtaining planning permission
- Drivesett Tegula Piora Blocks are designed to be laid in the popular random course laying pattern
- Available in 3 of the attractive Drivesett Tegula colours: Traditional, Pennant Grey and Harvest
- For co-ordinating kerbs and edgings (see p.154-159)

Tegula is a trademark of SF Corporation.

IMPORTANT Installation Note

The Piora System should not be attempted by the DIY enthusiast or untrained installer. It requires the careful calculation of a soil permeability test and appropriate use of specially graded sub-base aggregates.* Should an installer wish to undertake training for the installation of this product please call the Marshall's Helpline on 0845 820 5000 for further information.

Visit the Marshall's website to find your nearest Marshall's Register Installers trained to install Piora Systems, or call 0845 820 5000.

*See Conditions and Guidelines for use on p.169

Drivesett Tegula Piora	Sizes mm (nominal)	No. /pack	Weight (kg/pack)	Area (m ² /pack)	Colours	kg CO ₂ Per m ²
Large	240 x 160 x 60	232	1292	8.91	TR, H, PG	22
Medium	160 x 160 x 60	348	1292	8.91		22
Small	120 x 160 x 60	492	1369	9.45		22
